

Lower Beeding Parish Council

RISK ASSESSMENT

Definition of Risk Management

Risk is the threat that an event or action will adversely affect an organisation's ability to achieve its objectives and to successfully execute its strategies. Risk management is the process by which risks are identified, evaluated and controlled.

Purpose of Document

This document has been produced to enable Lower Beeding Parish Council to assess the risks that it faces and satisfy itself that it has taken adequate steps to minimise them. The Council is aware that although some risks can never be eliminated fully, it is developing a strategy that provides a structured, systematic and focuses approach to managing risk, which;

- Identifies the key risks facing the council
- Identifies what the risk may be
- Identifies the level of risk
- Evaluates the management and control of the risk and records findings
- Reviews, assesses and revises procedures if required.

Responsibility

Lower Beeding Parish Council is committed to identifying and managing risks using procedures and ensuring that risks are maintained at an acceptable level. Any action that is felt necessary to undertake to reduce risks will be done so by Lower Beeding Parish Council. The Clerk/RFO and nominated Councillors (Finance Committee) will review risks on a regular basis, including any newly identified risks, and report regularly to the Parish Council. The review will include identification of any unacceptable levels of risk. Members are ultimately responsible for risk management because risk threatens the achievements of policy objectives. Members should therefore:

- Take steps to identify key risks facing the Council;
- Evaluate the potential consequences to the Council if an event identified as a risk takes place;
- Decide upon appropriate measures to avoid, reduce or control the risk or its consequences.

Lower Beeding Parish Council

RISK ASSESSMENT
